Phone: 07773 797 587

### One Day Restorative Approaches Training

This course will introduce Restorative Approaches and Restorative Justice Conferencing and how they can help your school build community and manage conflict. We do this by examining how restorative approaches and conferencing can:

- build community with a positive learning environment
- produce positive outcomes for young people in conflict
- reduce exclusions, bullying, detentions and disruptive behaviour
- promote emotional literacy, truth telling, personal responsibility, accountability, and conflict resolution skills

Can be delivered to any size of group from 6-100. Suitable for any school wishing to begin to implement Restorative Approaches. Content can be flexible to suit the needs and existing experience of the delegates.

**For more information including course content contact us at:**
